A. Purpose

To transform our university's academic and social capacity into societal benefit by supporting, coordinating, and enhancing the visibility of activities grounded in volunteering, social responsibility, community partnerships, and innovative solution-oriented practices.

B. Mission

We coordinate the development, support, and dissemination of initiatives that mobilize the university's knowledge base, human resources, and social sensitivity to generate innovative and sustainable solutions prioritizing societal welfare.

We aim to strengthen university–community integration and to cultivate a sustainable culture of social contribution across the entire institution.

C. Vision

To become a nationally and internationally recognized structure that develops innovative, participatory, and sustainable solutions to social challenges; connects all components of the university with society; and institutionalizes a culture of collaboration, volunteering, and impact-oriented contribution.
